The diagram shows a circuit with components labeled as "BATT_SHNTn" and "BATT_SHNTp" connected to various nodes such as "+5V" and "0 - 2V". There are also connections to "S3_1", "S3_3", "S3_5", "S3_7", and "BOX_TEMP". The schematic is labeled with "Molex Nano-fit 105310-xx06 To Shunt + Mechanical Switch Board" and includes resistors and capacitors labeled with values like "348K", "25K", and "10u". The diagram includes a note indicating "50mV full scale" and "A". It is a circuit diagram for a shunt and mechanical switch board, possibly related to an experiment or project at The University of Chicago.
